

## New North Course and Grounds Cart Path Policy

In an effort to protect the golf course and have clearer communication on cart path usage, we are instituting a new policy on the North Course. For the summer months, when the temperature reaches 90 degrees, for the rest of the day the North Course will be restricted to cart-path only. When temperatures reach this level there is a high likelihood of damage to cool-season grasses. To protect the golf course and provide the best conditions possible for the entire season, this policy is needed.

This policy is solely for the North Course. The South Course will not be restricted due to heat. It is our hope that this will allow Members to plan summer tee times more easily based on the weather forecast and eliminate surprise restrictions. Most often, when temperatures reach this level we have been restricting carts anyway. This policy simply eliminates all ambiguity.

This decision was made in consultation with the Golf Courses and Grounds Committee, Golf Staff and other Club leadership. This is also a policy that has been adopted by other clubs in the area. To be clear and as fair as possible, we have placed a temperature gauge near the first tee area. This is the temperature we will go off of for the restrictions. Most often, temperatures peak around 3 PM, so this policy will affect afternoon tee times in most cases.

## Event Raises \$16,000+ for Alzheimer's Research

Jennifer Kline Vallina

The 8th Annual Alzheimer's Event hosted by the Ladies' 9ers on June 26 raised more than \$16,000 for the Alzheimer's Association. This year's event included strong participation from the Ladies' 9ers, 18ers and tennis players.

## SAVE THE DATE

### Pick 5

JOIN US FOR THIS FUN EVENT  
Each player can use **ONLY 5** clubs!
